CONDITION OF THE MARKETS

Chicago Wheat Opened at \$1.00 1-4, but Underwent a Disastrous Slump,

All the Big "Bears" Assaulted the Grain Pits Together, and the Close Was at 98 1/2c-Corn Declined Most of the Day.

MONEY, STOCKS AND BONDS.

Professional Transactions Serve to Keep the Price of Shares Depressed. NEW YORK, Oct. 14 .- Money on call was easy, ranging from 3 to 4 per cent.; the last loan being made at 3, closing offered

at 3 per cent. Prime mercantile paper 54 @71/2 per cent. Sterling exchange was quiet and steady at \$4.80 for sixty-day bills and \$4.8814 for

demand. The total sales of stocks to-day were 233,923 shares, including the following: Atchison, 21,652; Delaware, Lackawanna & Western, 16,530: Chicago Gas, 3,965; Erie 11,200; Louisville & Nashville, 24,830; Missouri Pacific, 8,696; Northern Pacific prefered, 15,585; Reading, 11,800; St. Paul, 18,525;

Union Pacific, 30,200. The stock market was again completely under the control of the bearish trading element to-day, and with the exception of a few outside buying orders and some trading by London on both sides of the account there was nothing but professional transactions throughout the entire day, and while there were a few spurts of activity in a few shares like Lackawanna, Louisville, Union Pacific and Atchison, the dealings were on a small scale, the general market being narrower than for some time past. The "short" interest in the market was, if anything, further increased by the day's opera-tions, and is growing into very large proportions. The opening of the market was steady and quiet, but while the coalers resumed their upward movement of yesterday and Lackawanus rose 1 per cent. and Reading 4, the rest of the list dropped from the outset, and the first drive was made at Louisville, which was depressed 14 per cent., Northern Pathe coalers received attention, and lost not only their early advance, but fractions in addition, and later Union Pacific was knocked down to 39 s. Considerable pressure was directed against Atchison, but little impression was made on it, and Missouri Pacific also resisted all efforts to get it down. The general list was dull, and, as a rule, featureless, but sympathized with the leaders, and prices slowly, but steadily, melted away throughout the day. One of the most important clines was in Lake Shore, which was driven down 1% per cent. in the last hour on comparatively light transactions. The market reached the lowest points in the last hour and covering again caused a rally toward the close, but while Lake Shore rose to 123 the general list finally closed quiet and heavy to weak at or near the lowest figures of the day. The final changes are all declines, and Union Pacific lost 10s, Louisville & Nashville 10s and C., C. & St. Louis 1 per cent.

Railroad bonds were more animated and showed none of the weakness existing in stocks, except in the Atchison incomes late in the day. The dealings were \$1,039,-000. The changes are generally advances. Government bonds have been dull and steady. Closing quotations were:

TRADING AT CHICAGO.

All Markets Were Weaker on Bad Weather

Reports in the Northwest, CHICAGO, Oct. 14 .- The wheat market opened strong and higher this morning. but soon weakened and scored a decided decline. There was a halt in the downward progress for a time, but the weakness was renewed and the closing prices were the lowest of the day and about 4c under yesterday's last figures. The market opened higher on the re-

newed reports of the serious damage to the unthreshed grain in the fields of North Dakota and indefinite reports about the or wheat exports by Russia, but the latter proving to have no better foundation than previous reof a similar tenor, and the signal service reporting the weather clearing in the Northwest. The crowd seized the opportunity offered by the advice to load up the people who had buying orders at the start. Linn, Ream, Cudaby, Pardridge, Gifford, Poole and the commission houses with New York connections were all heavy sellers. December opened at \$1.00%, against 90% at the close yesterday. It declined without any reaction to speak of in the course of the first two hours to 90 sc. There was a rise on the down turn due to buying against the "puts," but that was overcome by the superior weight of the offerings, and from 99%c to 98%c the decline was rapid. For a time there was liberal buying by New York and on Northwestern account, and the local "shorts" covered freely, and the local "bulls" were good buyers. But it soon became evident that there was plenty of wheat for and the buyers became less greedy. Then New York and the Northwest began to weaken, and word came that exporters there were reselling, and a rumor that Bradstreet's reported an enormous increase in the available supply helped the down-turn materially. Firm closing cables caused a rally to 99 sc, but weakness followed and there was another recession,

Corn declined most of the day, and shows a loss at times of 2e in October, 4e in November, and 40 in May. There was no news to weaken the market except that the weather was favorable for the maturing of the crop. The "short" interest in October seems to have been pretty well cov-ered, [and the lack of support from contingent seems to the factor in the weakness in that future. Otherwise it should have been strong, as the receipts continue extremely light. For the rest, the weakness was probably in sympathy with wheat. October opened at 57c, broke to 55%c, raihed slightly, weakened, sold off to 54120 and closed at 54%c, against 56%c at the close yesterday. Oats were quiet and

this time to 9842c, at which the market

steady to firm. The receipts of hogs were heavy, with prices lower, and the liquidation in hog products continued. The result was that provisions were weak in the early dealings, but there was a raily later, and the close shows insignificant changes, except in ribs,

Wheat, 2,000 bu; corn, 4,800 bu; cats, 6,800 bu. MINNEAPOLIS, Oct. 14 .- The local wheat market started out with a high head this morning, but it could not hold up. The injury to wheat in North Dakota and scattering through Northwestern points, from rain, was more emphatic than anything else, and expressions were general that great damage had been done. The market opened at 95 sc, nearly 1c above the last night's closing. The local crowd was bullish. The drop came suddenly, and was charged up to the heavy selling orders in New York and Chicago. At the noon hour the price had declined to 94'4c, and an effort had been made to pull to 94c. There was a large amount of low-grade wheat offered. and it sold strictly on quality. The sale table will show the receipts of wheat here were 163 cars; Duluth, 286, Close: No. 1 hard, on track, 94 2 295c. No. 1 Northern. October, 92c; December, 93%c; May, \$1.00%; on track, 93 c. No. 2 Northern, on track,

90 a 91c; curb, 93 sc. CINCINNATI, Oct. 14.-Flour steady. Wheat scarce and firm; No. 2 red, cash \$1; receipts, 4,700 bu; shipments, 1,500 bu. Corn steady; No. 2 mixed, 50c. Oats firm; No. 2 mixed, 31c. Rye in fair demand; No. 2, 90c. Pork easier at \$9.50. Lard dull at Buik mea's quiet at 7@7.12 c. Bacon in moderate demand at 8,50c. INDIANAPOLIS MARKETS.

Trade a Little Slow, but Indications Point to an Early Improvement. INDIANAPOLIS, Oct. 14.-In most departments to-day trade was a little slow, but as the indications are for more fall-like weather it is thought an improvement is near at hand, as, aside from the temperature, every condition is in favor of an active business in all lines. Dry goods are firm in tone; the same is true in all lines of hardware, druge and leather. In staple groceries there is a fair movement. The demand for refined sugar continues good and is somewhat stimulated by the increased firmness of the raw sugar markets of the world. Refiners have not found it necessary to reduce production, although they may not be selling quite all they manufacture as promptly as heretofore. The prices of many goods have been reduced, but granulated remains unchanged. There is no material improvement to report in the market for molas-ses. The sales of domestic grades are small, but new will soon be along and then more activity is expected. Foreign grades are steady in price and there is something doing in the medium grades of Porto Rico. The market for coffee still rules dull and the distributing trade has been light. There has been a further de-cline of 1/2c a pound in Brazilian grades, but on Java grades and all kinds of mild coffees there is a steady feeling and prices are thought to have touched bottom. "Lively and strong," is the way that teadealers report the tea market this week. There has been a good trade in invoices and lines, and an advance of 1c per pound has been established on low grade congous and oolongs. Choice Formosas have been in active request, and grades at 30c and upward are very firm. The provision market is active on most descriptions, with steady prices ruling.

The local market is rather tame, wheat ruling steady. Corn easier and oats firmer. Track bids to day ranged as follows: Wheat-No. 2 red, 96c; No. 3 red, 92c;

rejected, 85@90c. Corn-No. 1 white, 57c; No. 2 white, 57c; white mixed, 56c; No. 3 white, 57c; No. 2 yellow, 534c; No. 2 yellow, 58c; No. 2 mixed, 53 2c; No. 8 mixed, 53c; sound ear,

Oats-No. 2 white, 31c; No. 3 white, 29 4c; No. 2 mixed, 28 4c; rejected, 274c. Bran-Local dealers are bidding \$12.50. Hay-Timothy, choice, \$11.25; No. 1 timothy, \$10.25; No. 2 timothy, \$8; No. 1 prairie, \$6.50; No. 2 prairie, \$6; mixed hay,

Why Plow for Wheat?

To the thinking readers of the Practical

M. E. King, in Practical Farmer.

Farmer I want to say, get a pencil and paper and figure what it will cost you to plow and prepare an acre of ground for wheat in the fall. By referring to my last field plowed and prepared for wheat, I find it cost me \$53 to plow and prepare ten acres of land for wheat (in 1885), while it only cost me \$9 to prepare twelve acres of corn ground. As I said before I say again, that this thing of plowing for wheat in the fall of the year is a habit, and an expensive one at that. The time was when thought, like thousands of other farmers, that a man must plow for wheat, and under the old rotation of crops a man was compelled to, but for us there is a new and a better way, and all farmers can avoid fall plowing, with its hard work on man and team, by practicing a three-years' rota-tion. Say a clover sod to begin with: first corn, then wheat, then clover, or first potatoes, then wheat, then clover. Following this process, we get three crops with one plowing, while with a four-years' rotation we must plow twice for four crops; then with a three-years' rotation we have our land in clover every three years. I take a crop of hay the pret year, then plow for corn or potatoes, then wheat, then clover again. Since adopting this process, I find

Protecting the Grass Lands. Chicago Journal.

Beware of pasturing the meadows in the

around.

my land is getting better every year, in fact,

I have increased the net proceeds of my

farm over 50 per cent in eight years. I do

not attribute all these results to a three-

years' rotation, but to better methods all

fall of the year. This is one of the commonest but most destructive practices that the farmer is tempted to adopt by the promise of a temporary benefit. In sections of the country where a permanent covering of the field with a good layer of snow can be depended upon, the injury to the grass will not be so apparent, but this condition of affairs is seldom ex-perienced. The snow cannot be depended upon, and nature has to form her own protection for the grass roots. This is done by the solid layers of roots matting which covers every grass field, and so secure is this that "winter killing" is seldom witnessed where the second growth is Jan. 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05 | 6.05

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. NEW YORK, N.Y. LOUISVILLE, KY.

thorough protection that "winter killing" can be prevented. After the crop of grass is gathered, nature immediately starts to form a protection for the roots against cold weather, and by the time that frost is here a pretty thorough covering is formed. Pasturing animals on this second growth of grass not only injures it by eating off the heads, but by packing the dirt around the roots so tightly that poor drainage is afforded. The washing of heavy rains then completes the injury. The water is held in pools and puddles on the surface of the grass fields, and when alternate freezing and thawing come, the roots are generally killed. The grass roots are often torn up bodily by the animals, and

this makes a break in the protection which also causes damage. Injury to the grass field is not always noticeable for the first year or awo, but there is always a slow deterioration which is more important. Fall pasturing works out its injury in this slow but sure way. In the course of a few years patches in the grass-fields will be weak and thin, and the crops very much below the average. Fall pasturing, however, can be indulged in to a limited extent on grass fields which are to be turned under in a season or two for

It is on the permanent pasture lots, or the meadows where fall pasturing is the most harmful. Here any short-sighted view of the question will work a permanent and far-reaching result. Permanency is aimed after, and for a temporary advantage nothing must be done that will work a permanent evil. While fall pasturing may in certain cases be adopted on grass fields, it should be avoided on the permanent meadows and pasture fields.

Farm Notes. Unless both your stock and your soil are growing better, you are hable to wake up some day, and find that farming does not pay. There must be constant progress

along these lines. Land-plaster is valuable as a deodorizer and absorbent about the stables, and is better so used than applied direct to corn or clover, a practice once very general, but now fallen pretty well into disuse. It has been discovered recently by medi-

cal men that "lump-jaw," as it is called, or

lumps found on the jaws of cattle, are sometimes caused by decayed teeth. It is not known how much the poor brutes suffer with the toothache. A new enemy of the potato-vine has made its appearance in Michigan. The vine, when attacked, begins to wilt at the top. In the hollow of the stem is tound a worm

nearly an inch in length, which appears to sap the life of the plant. When small fruit trees arrive with the roots very dry they will be benefited if placed with the roots in a tub of water for a few days before transplanting them. Use plenty of water around the roots in the ground also at the time of setting them

Apples that are packed in buckwheat chaff for winter use keep longer, do not lose their flavor, are less inclined to rot, and, if a few are affected, the chaff absorbs the juices, which prevents them from affecting the rest.-Correspondence National

Experiments made for the purpose of determining the economic weight of a hog show conclusively that he never should be fed beyond eight or nine months of age, and that the largest profit is found, as a rule, in a weight not to exceed two hundred pounds. The Northwestern Agriculturist says that the finest crop of wheat raised in Coding-ton county, South Dakota, was raised this year on ground stubble-plowed and sown to millet in June, 1890, and plowed again the following August, turning under the millet, which was unpromising owing to

Hundreds of farmers have failed because of owning too much land. Farmers who cultivate more land than they can properly manage are said to be "land poor," as they pay taxes on unprofitable property. It will pay to divide large tracts into small farms, and sell all but that which comes within the ability of the farmer to properly manage, and from which he may derive a profit. A central New York farmer bought twenty-five breeding ewes in March at \$3.50 per head, or \$87.50 for the flock. The wool, after being creek-washed, was sold for \$52.50. Twenty-four lambs were raised, and the whole flock was sold in August for \$135, leaving a balance of \$100 to pay for the five months' keeping, and they were fed no grain .- Orange County Farmer.

The Nebraska Farmer relates an instance where a farmer bet he could raise more wheat on an acre from half a bushel of seed than the other could from three bushels of seed. The three bushels were sown in the ordinary way, the season was favorable and the yield was forty-three bushels to the acre. The other man prepared a splendid seed-bed and realized forty-seven bushels from his half-bushel of seed. Some asparagus plants might be set this

fall, if you have not already a supply of that delicious vegetable in the garden.

One hundred plants, that can be bought

for a dollar, will give an ample sup-

ply for a large family, if they have rich

cultivation. Set the plants a good dis-

tance apart, say rows five feet, and plants

two feet in the row. Do not be afraid to

put on the manure for a winter covering.

s not an experiment; it has been tested and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP "is a necessity." Don't let your dealer give you some other kind, if he hasn't Santa Claus, but insist on having only
